Scenarios and Scoring Criteria

Understanding GROW, and why it's widely used in many coaching industries.

1. Goals
2. Reality
3. Options
4. Will

- ✓ GROW – is based on Goals.
- ✓ You cannot teach a Goal!
- ✓ But you can teach a skill within the Goal!

This Session Explains Just How GROW is Used in Coaching!

We'll also explain how structuring your "Lesson Plan" around the GROW model is so crucial to your learner's development.

I found today's zoom training sessions…

I found today's zoom training session as well as last week's zoom workshop that was hosted by Sonny very informative. It has helped me to understand what is required and also how I can improve on the way I deliver a lesson. Will most certainly be returning for more sessions. Sonny is a very friendly easy person to get on with. If you are interested in becoming an ADI, been called for your Standard check or even becoming an ORDIT trainer look no further than option2drive.co.uk
